

Insurance Requirements

In accordance with UCI guidelines, Cycling New Zealand will not issue a rider an International Licence until proof of appropriate insurance cover has been provided.

According to UCI Cycling Regulations (1.1.022) appropriate insurance should include:

- Insurance for bodily injury (in and out-patient hospital expenses and medical care, transport costs, permanent disablement, death) and material damages (loss of earnings) in case of accident on the occasion of a cycling competition or during training.
- Third-party liability insurance for material damage or bodily injury caused to others in the course of a competition or cycling event or during training.

Cycling New Zealand endorses the International Travel Insurance policy arranged by Aon New Zealand and underwritten by Chubb Insurance New Zealand Limited and is satisfied it meets UCI requirements. Riders must provide a copy of their insurance certificate from Chubb before their license will be issued.

Riders can organise their own insurance to accompany the purchase of an international cycling licence. Riders must provide us with a letter or insurance certificate from their insurer stating that they hold medical cover and personal liability whilst cycle racing and training outside of New Zealand.
