- (2) For the purposes of subsection (1), if the regulator or a regulatory agency is unable to take enforcement action or prosecution action against any person in respect of the same incident, situation, or set of circumstances because the person is dead, the regulator or regulatory agency (as the case may be) must be treated as intending to take enforcement action or prosecution action.
- (3) Despite subsection (1)(b), a person other than the regulator may file a charging document even though a regulatory agency has taken or intends to take prosecution action if—
 - (a) the person has leave of the court; and
 - (b) the person has received notification from the regulator under section 142(2)(b) that the regulator has made a decision not to take enforcement action in respect of the same incident, situation, or set of circumstances.

- (2) The District Court may, on application by the regulator made before the end of the 12-month period specified in section 146(1)(a), extend the time available for filing a charging document for a further period not exceeding 12 months from the date of expiry of the 12-month period specified in section 146(1)(a).
- (3) The court must not grant an extension under subsection (2) unless it is satisfied that—
 - (a) the regulator reasonably requires longer than the 12-month period to decide whether to file a charging document; and
 - (b) the reason for requiring the longer period is that the investigation of the events and issues surrounding the alleged offence is complex or time consuming; and
 - (c) it is in the public interest in the circumstances that a charging document is able to be filed after the 12-month period expires; and

- (3) The court may—
 - (a) have regard to the code as evidence of what is known about a hazard or risk, risk assessment, or risk control to which the code relates; and
 - (b) rely on the code in determining what is reasonably practicable in the circumstances to which the code relates.
- (4) Nothing in this section prevents a person from introducing evidence of compliance with this Act in a manner that is different from the code but provides a standard of work health and safety that is equivalent to or higher than the standard required in the code.

- (3) Nothing prescribed in regulations made under this Act for the safe use, handling, manufacture, or storage of hazardous substances applies in relation to any resource consent to which this subsection applies that is—
